

# TATTOOS, BOOZE, ART & SHOES

A COUNTER CULTURE EVENT - FRIDAY THE 13TH

11/13/20

FATL (fatal) Productions is the production company that produced the A-Town Day healthcare and awareness festival and concert series for the B-Aware Foundation (501c3). We've been fortunate enough to have our events at some of the biggest venues in the city; Turner Field, Lakewood Amphitheater, Herndon Stadium (Morris Brown), Auburn Avenue and Booker T. Washington High school to name a few. Together with the B-Aware Foundation, we have received two proclamations and a house resolution for our hard work in the city of Atlanta. Our background is rich with entertainment having worked with and for some of the biggest celebrities, promoters, club owners, record labels, recording studios and radio stations in the industry. We created A-Town Day for the city of Atlanta and it was a magnificent event series for all parties involved.

We are creators and innovators first and foremost! In true FATL Production fashion, we're bringing another cutting-edge event series to the city of Atlanta. Tattoos, Booze, Art & Shoes is a counter-culture event that brings together Atlanta's top tattoo shops, distilleries and breweries, art galleries and art installations along with sneaker boutiques and fashion all in one place for your enjoyment. This will be a taste-maker's event for Atlanta's art lovers, sneaker freaks, alcohol enthusiasts and body art junkies to come together and network in a counter-culture atmosphere. Atlanta is filled with wonderfully talented artists from tattoo and graffiti gurus to photographers and painters and everything in between. Georgia is home to several distilleries and breweries that we would love to put on display, several of them are right here in Atlanta. The sneaker scene is booming in ATL and we want to bring all of these industries together to shine a light on the counter-culture scene. Atlanta is a mecca for the movement so it's only right that we get started right here in the A. Portions of the days proceeds will benefit the B-Aware Foundation. Get involved! #TBAS
